The most uncomfortable person in the country, no doubt, will be Arthur Sewall. The action of Maine and Vermont makes it plain that in this Presidential contest the six New-England States, for the first time since 1880, are to stand shoulder to shoulder in the front line of the Republican column. ## A BEAUTY FROM PARIS.

MLLE, ANNA HELD COMES TO STORM THE

AMERICAN STAGE. There is no doubt that Mile. Anna Held is beauti-ul. That is why she is here, and if she were not beautiful she would gain nothing by being here. If her head is capable of being turned by the mere assurance of its beauty, it must have

She speaks passable English, having had a season of ten weeks in London, and having made, as it appears, remarkable progress in the language in that time. Mr. Marks told a little of the story of her life. Her parents came from Warsaw, but she was born in Paris, and has always lived there. She has been on the stage for about five years and has come to be much ad-

She was, in fact, under an engagement at the very time when she started for this country, and, in consequence, she had to pay a forfeit of 20,000 frances in order to come here at all. "Twenty thousand france" is an expansive way of saying \$1,000, and the sum is not quite four weeks' salary for Mile. Held in America.

"Qu' est ce que c' est qu, un cocktail?" said Mile. Held in a little pause of the conversation, appropriately to nothing. The term was explained, and then it appeared that in the course of the voyage she had heard Mr. Marks say once or twice, or possibly three times, that he was going to get a cocktail. This word, which she had never heard either in London or in Paris, had troubled her ever since. After Mr. Marks had explained that Mile. Held cas to stay in America for three months, and for

Boulogne-Sur-Mer, Sept. 15.-The Public Procureur to-day re-examined Tynan, and questioned him regarding his complicity in the murders of Lord Frederick Cavendish and Mr. Burke, in Phoenix Park, Dublin. THE GUEST OF VICE-PRESIDENT THOMSON, OF THE PENNSYLVANIA RAILROAD.

Philadelphia, Sept. L.-Lord Russell of Killower, Lord Chief Justice of England, was entertained this afternoon at a reception in the Pennsylvania Railroad Company's offices, and several hundred of the most prominent men of the city were presented to him. Vice-President Frank Thomson, whose guest Lotd Russell is, had charge of the reception in the absence of President Roberts, who is Indisposed. The guests were presented to the distinguished jurist in the office of the president, and luncheon was served in the directors' room, which was handsomely decorated. Lord Rassell will probably remain with Mr. Thomson until Thursday. The Law Association and the Lawyers Club had appointed joint committees to complete C. L. Buzzo, an American, who is a colleague of Mann, was also arrested.

The immediate and direct cause for the arrest of Tom Mann is to be found in the fact that he came to Hamburg with the avowed object of enlisting the dock workers for the international strike now in preparation among the laborers of that class throughout the world. This is a project the nature of which can hardly be realized; but, meanwhile, the German Government, which is not over tender in regard to Socialistic troubles, has used its natural prerogative in arresting a foreigner whose such arrangements, but when the members of the

## OBITUARY.

JOHN C. LOGIE.

Friends in this country who knew John C. Logle will learn with regret of his death, on July 15, at Bwemba, Congo Free State, South Africa. He was born at Dundee, Scotland, thirty years ago, the third son of James Logie, a prominent maritime native city, where also he received his training in the British Linen Company Bank. Mr. Logie continued in the service of this institution for twelve years, during part of this time in Glasgow, later in Edinburgh, where he rose to an assistant-inspectorship, and eventually he was promoted to the joint agency of the principal office in Dundee. Always a student, much of his leisure was passed among his books. He belonged to the United Pres byterian Church, and wherever his lot was cast he engaged energetically in church work. For years he had desired to identify himself with foreign missionary work, and it was not much of a surprise to his friends when he resigned his place as a banker, about three years ago, and later entered the East of London Institute (Dr. Guinness, general director) to obtain some training for the for eign field. After preparation there he volunteered for the Congo-Balolo Mission in Central Africa.

The field was large, the laborers few, and those who went there well knew that they were taking their lives in their hands. Of a band of four, of whom Mr. Logie was one, who sailed from Antwerp in August, 1894, one died at the mouth of the Congo, while Mr. Logie was severely prostrated on the journey inland. Since his arrival at Lulanga, where he was stationed, Mr. Logie had en joyed good health until about four months ago. when an illness seemed to necessitate his return home. After care under Dr. Sims at Leopoldville however, he recovered sufficiently to resume his work, and it was on the way to do so, while resting and recruiting among the kind friends of the American Baptist Missionary Union at Bwemba. that he was fatally stricken down. Mr. Logie very rapidly acquired the language

his mission-field, and worked with much zeal among the natives. In the short time he labored there he made several evangelizing tours up tributary rivers of the Congo. In some instances he His business experience rendered him of considerable value in the work of organization connected with the station and the mission generally. In preaching or teaching, in building the miss

preaching or teaching, in building the mission-houses, superintending others or working with his own hands, he never spared himself, and his early death is a blow to the mission, which can ill-spare its helpers. In the last year seven of the missionaries out of twenty-five have died.

The sister of Mr. Logie, who wintered in this neighborhood in 1823-94, had just gone out to join her brother in work on the Congo. It was not permitted to her, however, to meet him, as his death occurred two weeks before her arrival at Matadi, where she probably still is, all the transportation to the interior having been engaged by the Belgian authorities to convey troops in an expedition against some of the bordering tribes.

Mr. Logie leaves a father, three brothers and four sisters. Two of the brothers are William and Alexander, who, under the firm name of Alexander Logie & Co., are in business at No. 56 Worth-st., and live in Montelay. N. J.

# TO ELECT A SUPERVISOR.

THE BOARD OF EDUCATION WILL PROBABLY CHOOSE THE HEAD OF THE KINDER-

GARTEN DEPARTMENT TO-DAY. The Board of Education is to meet in its hall in Grand-st. this afternoon at 4 o'clock. The most important matter to come before the commissioners for a decision will be the selection of the Supervisor of Kindergarten Instruction. The two candidates who have been mentioned for the present instructor in pedagogy at the Normal College, and Mrs. Clara M. Williams. Speaking of the probable action of the Board in this matter to a Tribune reporter yesterday, Commissioner Charles Bulkley Hubbell, who is a trustee of the Normal College, said: "The Board will undoubtedly comto a definite decision in the matter to-morrow afernoon. From the outlook at present I do not think that any candidate other than Miss Merrill. the new Lapt whose thorough knowledge of kindergartening, both practical and theoretical, has impressed a great many of the commissioners favorably within the last few days, will be considered seriously.

"Certain of those who favored the selection of Mrs. Williams have said that any one could learn the entire system of kindergartening in thirty days. Were this true it would be absurd for the Board to pay the proposed salary of \$2,500. We need an expert pay the proposed salary of \$2,500. We need an expert in the place and must have one. Mrs Williams has had practically no experience whatever in kinder-gartening. Miss Merril, in addition to being an expert kindergartener, has that rare and yet almost indispensable quality of inspiring those with whom she comes in contact with the love of teaching. She has manifested this repeatedly in her excellent work at the Normal College."

Superintendent Jasper said yesterday that before January 1 next he hoped to have forty-five kinder. Superintendent Jasper said yesterday that befor January i next he hoped to have forty-five kinder gartens established in the schools. It is his desire to have as soon as possible at least one kindergarte in connection with every primary department in the city, and in the large departments two or three kindergartens.

A VARIATION OF THE "TRUNK MYSTERY." Herrmann, the magician, was interrupted in his "trunk mystery" last night at the Academy of Music in Jersey City, by a stranger in the audience who challenged him to perform the trick with a bag other han the one regularly used. Commotion followed the interruption and, although Mr. Herrmann perthe interruption and, although Mr. Herrmann performed the trick as usual, with the bag furnished by the stranger, the theatre policeman wanted to arrest the latter. It required much persuasion on Mr. Herrmann's part to convince the policeman that he was over-zealous. There were some in the audience who did not believe that the man with the bag was such a stranger to Mr. Herrmann as he appeared to be, but it was a good trick.

COLLISION OF STREETCARS. There was a collision shortly after 8 o'clock last night between a Third-ave cable-car and an Ave-nue D hors-car at Park Row and Pearl-st. It was rear-end collision, the cable-car running into the horsecar, but, aside from a smashing of windows and a scare to the passengers, little damage resulted. Some passengers were shaken up, and received a few scratches and bruises. John Duco, the gripman of the cable-car, and John Kinsella, the conductor, seld that a failure of the brake to work was the cause of the accident.
